	EO's summary of response. Response was received from Advanced Aromatics,, LLC. (AA, LLC) at 5501 Baker Road, Baytown, Texas (the Facility). GNL addressed to Advanced Aromatics, L.P. (AA, LP) at 5501 Baker Road, Baytown, Texas. AA, LLC claims it purchased the Facility from AA, LP effective 2/9/12, and said purchase agreement provided that AA, LP retained liabilities for environmental condition or liability that relates to the Facility. Therefore, AA, LLC recommended GNL be sent to AA, LP. However, in the event AA, LLC is legally responsible for this matter, AA, LLC is willing to participate in the settlement negotiations.	1 Advanced Aromatics, LLC	Deborah C. 	"Delta believes that any materials that Delta would have sent to the Site were a small portion of what CES received and managed. Further, it is not clear that any materials Delta may have sent to the Site remained there when EPA began taking response actions in September 2014 or that any materials from Delta contained the hazardous substances or conditions identified in the General Notices. Nonetheless, subject to an appropriate equitable division of costs and reserving the right to change its position upon completing review of any documents or new information, Delta is prepared to have discussions with EPA and other parties in similar circumstances about reimbursing EPA for its costs of implementing response actions related to the materials it may have sent to the Site.	11 Delta Petroleum Company, Inc. for Delta Companies and Delta Chemical (collectively "Delta")	Freedom S.N.
